Description

The K-meral TRIS Floor Lamp is equipped with a porcelain lampshade as well as a lamp stand either coming with a cover in stainless steel or antequely stained mahogany. A totally unique luminaire is created by the combination of the fine porcelain flame, the natural surface and the moody atmosphere of the light radiated. The lamp stand of the K-meral TRIS Floor Lamp is 19 cm in diameter and 2.5 cm high with the stainless steel version. However it is 20 cm in diameter and 6.4 cm in height with the mahogany variant. This floor lamp radiates a direct neutral light onto the ceiling and it distributes a warm diffuse light in its surrounding. The K-meral TRIS Floor Lamp is switchable as well as dimmable by simply touching the metal parts. The transformer is to be found in the supply cable.
