

Keilbach

House number Big Number 240

Ausführung

- three digits
- digit
- four digits
- two digits

Description

The house numbers Big Number 240 from Keilbach is the second largest number in the comprehensive Big Number collection with a height of 24 cm. It is completely made of brushed stainless steel. The house number is fixed to the house wall with spacer rings.

The selection of the correct font is very important when designing a house number, because a house number should be optimally legible. In addition, each house number is an important design element on the house wall. The font "Eurostile" is used for the Big Number. This was already designed in 1962 by the well-known Italian typographer Aldo Novarese.

The numbers 0 to 9 and the letters a to d are available. When ordering, please enter the desired combination of numbers and letters in the " Comments " field.
