Description

The Bopp Share is a 180 cm high floor lamp that can be used both as a ceiling floodlight and as a reading light. The light source upwards can be switched and dimmed separately from the reading light downwards via two buttons integrated in the lamp. The reading light integrated in the lamp head shines upwards until it is folded down and used as a reading light. The light head of the Bopp Share can be rotated 350 degrees and the downward reading light can be tilted 300 degrees. The warm white light emitted by this ceiling washer can thus be directed to the spot where it is needed. The diameter of the lamp head of this ceiling washer made of aluminium is 30 cm. The swivelling reading light is 12 cm long, 5 cm wide and 12 cm high. The stand-by interruption of this lamp is controlled by a footswitch on the 160 cm long connecting cable. The round lamp base ensures a high stability of the lamp due to its diameter of 28 cm. The Bopp Share floor lamp is available in the surfaces anodised aluminium, anodised black and anodised bronze.

Technical details

Country of Manufacture	 Germany
Manufacturer	Bopp
Protection class / IP rating	IP20
Contents of the package	LED
material	aluminum
Cable length	160 cm
dimming	separately switch- and dimmable by 2 pushbuttons dimmers
LED	inclusive
Colour Rendering Index	80
Color temperature in Kelvin	2,700 extra warm white
lamp stand dimensions	28 cm
light head dimensions	30 cm
system performance	1 x 40 + 1 x 8 Watt
Total luminous flux in lm	7,440
Dimensions	H 180 cm
