Depth in cm	7
material	aluminum
dimming	dimmable on site
Base / Socket	R7s
Power (max. Watt)	120 Watt
Dimensions	H 6 cm B 20 cm

Description

The Steng Small Brigg 2 Halogen emits its light simultaneously upwards and downwards. Part of the light is emitted in both directions onto the wall, from where it is then reflected into the room. This wall lamp is 20 cm wide and 6 cm high. It has a depth of 7 cm.

The displayed image shows the product with light distribution upwards instead of upwards and downwards.

This Small Brigg 2 is operated with an R7s halogen lamp. The wall lamp is available in the surfaces aluminum (RAL 9007), black matt (RAL 9005) and white matt (RAL 9016). All surfaces have a fine structure. On request, the lamp is also available in other RAL colours. In addition to this lamp for halogen lamps, a wall lamp with integrated LED from the Brigg series is also available.
