Technical details

Country of Manufacture	 Germany
Manufacturer	Lichtlauf
Designer	Christoph Matthias
Year of design	2012
Protection class / IP rating	IP20
Contents of the package	Leuchtmittel/ Bulb
material	polyethylene, Textile
surface	white
Cable length	120 cm
dimming	dimmable on site
Base / Socket	E27
Power (max. Watt)	70 Watt
bulb exchange	on site itself

Description

The Lichtlauf UpLight is an unusual lamp for mounting on a ceiling or wall within a radius of approx. 1 m around a power outlet. The white hollow sphere made of resistant and high-quality polyethylene is available in three different diameters, the textile cable in three different colours. The Lichtlauf Uplight can be positioned very freely, thanks to the diverse mounting options, this spherical luminaire is a wall or ceiling luminaire as well as a pendant lamp. Wherever uniform, soft light is to illuminate the room, this lamp is ideally placed. If you combine several lamps with different diameters, small individual light objects are created. The UpLight by Lichtlauf has an E27 ceramic socket and can be operated with conventional halogen bulbs as well as with LED retrofit bulbs. This lamp is available with a diameter of 30 cm, 40 cm or 50 cm. The textile 1.2 m long cable is optionally available in white, red or grey. With the enclosed accessories (including canopy, ceiling bracket and wire rope), the lamp can be mounted on the wall as well as on the ceiling. The textile cable is also available in other colours and lengths on request.
