

Bover

Anchoring for foundation Moai B

Technical details

Country of Manufacture	 Spain
Manufacturer	Bover
material	steel

Description

If you want to anchor the Bover Moai B outdoor lamp reliably in the concrete, the use of a foundation anchor is practically indispensable. This way, the construction gets the right hold to be prepared against impacts (e.g. by wind). With this foundation anchor, the bollard light Bover Moai B in both sizes can be firmly anchored into the foundation.
