Description

The Licht im Raum Ocular 4 LED Series 100 is 146 cm long and 23 cm wide. When mounted, the pendant lamp can be individually set in total height. Its four lenses, each with a diameter of 100 mm, can be swivelled. The Ocular lenses focus and control the light in a precise, glare-free manner, creating a superior quality of light. The light is focused by the lenses and distributed homogeneously downwards. In addition, an LED emits light upwards.

The Ocular 4 LED Series 100 is available in brushed stainless steel, hand-polished stainless steel, matt black, white, natural brass and black / gold finishes. It is operated with five long-life, extra warm white LEDs. The pendant lamp can be regulated via a rotary dimmer integrated in the lamp.
