Technical details

Country of Manufacture	 Germany
Manufacturer	Knapstein
Year of design	2024
Depth in cm	8,5
Diameter in cm	40
Materials	Acryl, Metall
Dimmability	dimnable with a trailing edge dimmer and with a leading edge dimmer
Power in watts	39 W
LED #	inclusive
Colour rendering index (CRI / Ra)	>90
luminous flux	4338
color temperature (kelvin)	2.700 extra warm white
Protection class / IP rating	IP20
Contents of the package	LED
bulb exchange	at the manufacturer / at the factory
Dimensions	Ø 40 cm

Description

The Knapstein ASTRA-40 has a curved metal cover with freely combinable outer structures. This metal cover is placed on a magnet attached to the mounting plate. By turning the cover on the magnet, the distance between the cover and the wall or ceiling can be changed by up to approx. 35 mm at any time, making it easy to customise the light outlet. The LED lamp offers an almost loss-free and glare-free light emission and allows flexible brightness control. The Knapstein ASTRA-40 emits indirect light, has a diameter of 40 cm and is 8.5 cm deep. This lamp can be mounted on the wall or ceiling. It is also possible to connect several ASTRA lamps together if an overlap is desired. The Knapstein ASTRA-40 is available in several surfaces and freely combinable external structures.
