

Holtkoetter

Supernova DW

Oberfläche

- aluminum
- brass
- platinum
- black

Description

The Holtkötter Supernova DW arched lamp has a lamp head consisting of two parts: an outer ring and an inner disc. The two parts of the lamp head each have an integrated LED. The LEDs can be operated and adjusted via a touch dimmer panel centrally located on the luminaire rod. The outer and inner rings can be switched together or separately and dimmed continuously. When dimming, the light colour of the integrated LEDs changes to a warmer tone (from 2,900 Kelvin warm white to 2,200 Kelvin warm white) thanks to dim-to-warm technology. The last light setting used is saved using the memory function. As the inner and outer rings can be swivelled independently of each other, the light emission can be directed both directly and indirectly. The Supernova DW floor lamp from the German manufacturer Holtkötter is available in matt aluminium, platinum, anodised brass and black.

Technical details

Country of Manufacture	 Germany
Manufacturer	Holtkoetter
Designer	Holtkötter
Year of design	2019
Power in watts	1 x 40 + 1 x 71 W
LED #	inclusive
Colour rendering index (CRI / Ra)	>90
luminous flux	14700
color temperature (kelvin)	2.200 - 2.900
Protection class / IP rating	IP20
Contents of the package	LED
Projection in cm	71
material	metal
dimming	Push button dimmer at the light rod
lamp stand dimensions	42 cm
light head dimensions	42 cm
bulb exchange	on site itself
Dimensions	H 185 cm
